

WIREFREE AUDIO TWO WAY INTERCOM

- Two way wireless intercom
- The handset is fully functioning DECT land line phone powered by 2 x AAA rechargeable batteries in the base unit. This means that the handset can make and receive BT/Cable calls
- Pressing the call button on the door station rings the handset in the house.
- The user in the house accepts the call and speaks to the visitor at the door.
- If a lock release facility has been fitted pressing the key button on the handset unlocks the door to let the caller in.
- The door station can be powered by 6 x AA batteries or a plug-in 12 Volt transformer. If an electric lock release is required a plug-in power station is recommended.
- Up to 6 SX304 cordless handsets can be used on each system.
- If two or more handsets are used additional functions are available including room monitoring, baby call, walkie-talkie and intercom.
